

Deluxe Farmhouse

Western Red Cedar

The Farmhouse **MUST** be installed with the floor being level and flat. Installation problems may occur if built on an uneven site.

Cedar and treated pine are both excellent outdoor timber. To maintain the natural colour and reduce splitting, it is recommended that the Cubby be painted with Quality Cubby House Transparent Cedar Coating to seal the timber immediately after installation.

Quality built to outlast the kids!

Designed for child's play - up to 50kg per child

Get all features & benefits at no extra cost!

- Extra high walls
