

# The Shed

*Western Red Cedar or  
Decorative Exterior Ply*

The Shed **MUST** be installed with the floor being level and flat. Installation problems may occur if built on an uneven site.

Cedar and treated pine are both excellent outdoor timber. To maintain the natural colour and reduce splitting, it is recommended that the Cubby be painted with Quality Cubby House Transparent Cedar Coating to seal the timber immediately after installation.

Quality  
built to  
outlast the  
Kids!

## Get all features & benefits at no extra cost!
